Lonely Lover

Marvin Gaye

Lonely lover cryin' through the night 'Cause the one you love has left you Lonely lover cryin' alone in the dark Your sighing just breaks my heart

I hear you cryin' from across the street
It keeps me awake, unable to sleep
I close my window, not wanting to hear
Still your cries echoes in my ears, hey, hey

Lonely lover cry your little heart out Tryin' to wash away your hurt, yeah Lonely lover, how I long to comfort you 'Cause when you're hurting, I'm hurt too

From my window across the street
I watched you kiss him tenderly
Kissing you like I never could
To you I'm just another guy in the neighborhood, hey, hey

I've heard neighbors sayin' that he's gonna put you down For another girl, across town Lonely lover sobbing through the night How I long to hold you tight

Many nights I've wakened from my sleep Hearin' you cryin' from across the street Your neighborhood friend is all I'll be But I still love you so tenderly, hey, hey

Lonely lover cryin' through the night Lonely lover cryin' through the night Ooh, lonely lover cryin' through the night Ohh, lonely lover sobbin' and weepin', baby
