

## Brand New Star

Mary Black

Every now and then you like to take it easy  
Sit right back and view the situation  
The future is brighter  
Soon we'll be riding on the crest of a wave

Good-bye to all your troubles  
Change of heart, the world will start today  
It's like a new beginning  
See it shining like a brand new star

Well, if you're thinking that you'll end up crying  
Maybe all you need is to get away from friends  
And the walls around you  
Find a shore, step into the sun

Brand new star

I won't be a burden upon your shoulder  
I will give you wings so you can fly  
To lands where you're dreams surround you  
Find a shore and step into the sun

Brand new star  
Like a brand new star
