## **Come On Home**

## **Mary Chapin Carpenter**

Slowly as you look at me
In your eyes I can't believe
All the things I'm seeing now
Plain as day to me somehow

Oh love, come on home

Promises a heart can keep
Happiness is you and me
Never was a dream so right
Love has finally come in sight

Oh love, come on home

You fit into my life and You seem so right, like someone planned it You give yourself to me and You give so easily Seems like you always understand

Everything says you're the one Time is shining like the sun Telling my heart what to say Growing old with you someday

Oh love, come on home

You give yourself to me and You give so easily Seems like you always understand

Everything says you're the one Time is shining like the sun Telling my heart what to say Growing old with you someday

Oh love, come on home Oh love, come on home Oh love, come on home Oh love, come on home
