

Hunters of the Sky

Mastodon

Running faster than I ever have
Evading sharks of the sky
Death trap and I kill again
Dig through my own hives
Shelter from sky
Talon of raptor
Force-fed glass giant moth
Reaping fields of the flesh
Heavy hand thwart the scheme
Of the dominant nymph
Omen she brings
Carried on weathered wings
Fly reptile
Leather wings
Bones hollow
Petrified
Running faster than I ever have
Evading sharks of the sky
The earth's ashing floats
What is good for man
Cast us out into the known
