I thought I knew I'd find you Right infront of my eyes Oh, it's holdin me down And oh it's holdin me down To let you inside, now

It's calling out, it's calling me
And I follow the hour
And I will love your way
And I love your way
To let you inside, now

And all along the way
I'll find you, I'll find you
And all along the way
I'll find you, I'll find you
And all along the way
I'll find you, I'll find you and lay you down

Even though you can't touch me I'm right there under your skin And I've fallen in love before But with no one with a name not anymore

And all along the way
All along the way
And all along the way
I'll find you, I'll find you
All along the way
I'll find you, I'll find you

And all along the way I'll find you, I'll find you, down

And all along the way
I'll find you, I'll find you
And all along the way
I'll find you, I'll find you
And all along the way
I'll find you, I'll find you
And all along the way
I'll find you, I'll find you
I'll find you, I'll find you
