

## Do You Love Me?

Matt Dusk

Truth be told simple and bold I think you're special  
We can roll like a team, know what I mean  
See, I'm not gonna mess around  
And I'm not gonna let you down  
Cause I do love you  
This I know, this I know!

Money makes the world go round  
People will be people always  
Baby what goes up comes down  
This I know, so here I go

Do you love me? (love me)  
Do you love me? (love me)  
Do you love me? Tell me!

Hot or miss, here's what it is you are that someone  
A diamond in the rough, the real stuff!  
Now if a good girl is hard to find  
Then luck is a friend of mine, cause I do love you  
This I know, this I know

Money makes the world go round  
People will be people always  
Baby what goes up comes down  
This I know, so here I go

You're the one I've been looking for  
My eyes have no need to wander anymore  
I don't need anyone I got you  
This I know, this I know

Money makes the world go round  
People will be people always  
Baby what goes up comes down  
This I know, so here I go
