Wouldn't Change A Thing

Matt Dusk

Here I go once again
Will I find the same end, or will I get it right
Will I change?
Will I make all the same mistakes?
O will I see the light?

Your friends said that we Would never last that long Well I guess your friends were wrong

We'll still love kissin', we'll still refuse to listen This got to be the world's longest fling We're still hangin' in there So very glad we've been there Even if I could I wouldn't change a thing

Maybe we'll have a fight That'll mess up the whole night It can even last for days But they're few and they're far In between the next star Making up is always great Yes it's true on paper We don't look that strong Well I guess the paper's wrong

We'll still love kissin', we'll still refuse to listen This got to be the world's longest fling We're still hangin' in there So very glad we've been there Even if I could I wouldn't change a thing

Even when you steal the covers I wouldn't change a thing Even when I'm at your mothers I wouldn't change a thing Even when you take me shopping I wouldn't change a thing Even when you won't stop talking

On a side note when I first met you I never thought I'd get to share every single thing with you And now you make me feel brand new

We'll still love kissin', we'll still refuse to listen
This got to be the world's longest fling
We're still hangin' in there
So very glad we've been there
Even if I could
I wouldn't change a thing
(2x)

Even if I could, I wouldn't change a thing
