

Girl Wedged Under The Front Of The Firebird

Matthew Good Band

And here's the weirdest part about that story,
The guy was so upset that she ripped him off for his money
She was actually wedged under the front
I told you about that
Under the front of a fire bird
And he's trying to get the ten dollars of rock back out of her
hat
While she's wedged under the car.

I think that
I shit you not she was actually wedged under the front
I told you about that
Yeah under the front of the fire bird
She was actually wedged under the front
I told you about that

I fall down
You get up
Not a sound
Between us
Between us
Between us
Between us
