

# Going All The Way

Matthew Good Band

Well this is it  
So where it's at  
Monomaniacs  
Baby you know it's all we're good for

Drugs for the kids  
If the kids are flat  
All dressed up to match  
Those shit eating grins look effortless

And if there's nothing left to die for  
And all this our beauty is just decay  
And if there's nothing left to fie for  
Then you and me,  
Let's go out going all the way

Well this is it  
So where it's at  
Megalomaniacs  
Baby you know it's all we're good for

Those missile men  
With their master plan  
Don't get paid to understand  
Makes you wonder where we got these shit eating grins from

And if there's nothing left to die for  
And all this our beauty is just decay  
And if there's nothing left to fie for  
Then you and me,  
Let's go out going all the way

Dreams of the sea  
Caught way inland  
Cut as losses, we'll cut our losses  
We'll cut our loss

And if there's nothing left to die for  
And all this our beauty is just decay  
And if there's nothing left to fie for  
Then you and me,  
Let's go out going all the way
