

# Satellites

Matthew Perryman Jones

It's not what it's meant to be  
All of the longing and the distance in between  
Oh I want you  
Living inside a dream  
Is there an ending  
Cause I can barely breathe  
Oh I want you  
Here with me

Someday  
The story comes true  
And while I wait  
I'm reaching out to you

Satellites  
Moving under the stars tonight  
Pulling closer into the light  
Two lovers so far  
Away  
Close your eyes  
And imagine I'm in your sight  
Sending wishes and taking flight  
Lovers will find  
A way

Do you feel like you're in control  
There is a limit to what gravity can hold  
Do you want me  
How do you ever choose  
Between the present and the future you can't prove  
Do you want me  
Here with you

Somehow  
The story comes true  
And while I wait  
I'm reaching out to you

Satellites  
Moving under the stars tonight  
Pulling closer into the light  
Two lovers so far  
Away  
Close your eyes  
And imagine I'm in your sight  
Sending wishes and taking flight  
Lovers will find  
A way
