

Mainstay Of Society In The Eyes Of The Law Corruption

MaYaN

Fraud is the way to supremacy
Be brave where others do not dare
We're only asking for your loyalty
In a kind and friendly way

Corruption is the mainstay of society
To keep us ruling in the world
We're only asking for your loyalty
But will not ask it twice

We're above the law
And we're set to make the call

And the lies we sent
Lead to the end
To justify the means

We're above it all
And we're bent to make you crawl

For the fear we spread
Will justify the scene

All that I have already
Is not enough for me
When I can't get the honey
I wipe out the bees

All that I did already
Is not enough to be
The only dominator
Make way for me

Lies are needed for the unity
The masses crave their fairy tales
We're only asking for your loyalty
And by force if need shall be

We're above the law
And we're set to make the call

And the lies we sent
Lead to the end
To justify the means

We're above it all
And we're bent to make you crawl

For the fear we spread
Will justify the scene

I am the abused inventor
of corruption and deceit
I am the undaunted swindler
I am your government

All that I have already

Is not enough for me
When I can't get the honey
I wipe out the bees

All that I did already
Is not enough to be
The only dominator
Follow the ruler
Or get away from me

Purjury, the legal way
to justify when gaining ground
A terrorist who can be found
As change for black gold

Purjury is no offense
for dignitaries and presidents
Open up, dig it out
Open up the files

All that I have already
Is not enough for me
When I can't get the honey
I wipe out the bees

All that I did already
Is not enough to be
The only dominator
Make way for me

All that I have already
It's not enough for me
I just want all the honey

All that I did already
It's not enough to be
Seen
