

# All Better

Mayer Hawthorne

Love don't bring me down  
You can turn me around  
Love don't lead me out  
And then leave me all alone

Love don't do me wrong  
I've been waiting too long  
Love don't set me up  
And then pull the rug away

Love can make me all better  
Love can make me all right  
Love can pull me together  
So just make me all better tonight.

Love don't say goodbye  
Leave me wondering why  
Love don't come halfway  
And leave one foot out the door

Love please let me stay  
Don't you throw me away  
Love don't wring me out  
And then hang me up to dry.

Love can make me all better  
Love can make me all right  
Love can pull me together  
So just make me all better tonight.

La la la la la...
