

Lay Myself Down

Mazzy Star

Just like that, she follows me
My wings are under her tree
She says one thing and that's just enough
It doesn't matter how much

Would I forget
Laying myself down
Just to regret
And that's all
Would I forget

I'll go away
I'll never know how far, how long
She keeps a diamond inside her door
She don't have a clue

Would I forget
Laying myself down
Just to regret
And that's all

Would I forget
Laying myself down
Just to regret
And that's all

And that's all
And that's all
