Ride It On

Ride it on baby Into my view Ride it on baby Into your side Ride it on baby Just like you used to do

Did you want me to love you Well, I'm just here for the call And you said that you're so low Well, I won't really do you any harm Won't you ride it on baby Just like you used to do

There's no love that you're over feeling And you still want to be with me But you're leaving like you said that you would I'm waiting for the call And you love like you always say now But you know it won't do you any harm

Ride it on baby Just like you said that you would Oh then ride it on baby Just like you know it's understood

Ride it on baby It's still into your view Ride it on baby I only want to be with you

I'm dreaming that you're going far And you lie, take and whine Won't you ride it on baby But you're so heavy for the price Ride it on baby Just like you said that you would
