

# Home Is Where the Heart Is

**Mcfly**

We all dream, we have desires.  
Win the cup, and we'll hold it higher, than it's ever been  
Raise your hands and lay down your weapons,  
We could turn this around in seconds right,  
Cause we believe.

Home is where the heart is,  
It's where we started,  
Where we belong, singing.  
Home is where the heart is,  
It's where we started,  
Where we belong.

We will always be united,  
So much more than a game we're fighting now, come and sing with us  
We are the .. know the meaning,  
A thousands army whose hearts are beating, loud  
Feel that they bite the dust.

Singing  
Home is where the heart is,  
It's where we started,  
Where we belong  
Come on and sing it  
Home is where the heart is,  
It's where we started,  
Where we belong.

It's tired of music, blood and anger,  
Our three lions love the danger  
Sing your heart out for the young dreams  
And go down in World Cup history

Now's your chance think of your lovers,  
We are all sisters and brothers.  
Now's your chance think of your lovers,  
We are all sisters and brothers.  
Now's your chance think of your lovers,  
We are all sisters and brothers.

Home is where the heart is,  
It's where we started,  
We're England.

Home is where the heart is,  
It's where we started,  
Where we belong
