

## More than You Deserve

Meat Loaf

From the very first moment I saw you, I knew our love would be  
so strong  
And the very first moment I kissed you, I knew our joy would la  
st so long  
And then I saw you making love to my best friend, I didn't know  
whatever to say  
I saw you making love to my best friend  
So I looked him right in his eyes and I said - listen boy

Won't you take some more, it's what you came for  
And don't mind me, I won't throw you no curves  
Have yourself a ball with my good woman  
Won't you take some more boy, it's more than you deserve  
Won't you take some more boy, it's more than you deserve

When I saw you hanging round the truck stop, shining like an an  
gel in the night  
And when I saw you crying like a baby, I knew you'd have to be  
my wife  
Then I saw you making love to my best friend, I didn't know wha  
tever to say  
I saw you making love to my best friend  
So I looked him right in his eyes and I said - listen boy

Won't you take some more, it's what you came for  
And don't mind me, I won't throw you no curves  
Have yourself a ball with my good woman  
Won't you take some more boy, it's more than you deserve  
Won't you take some more boy, it's more than you deserve

(Instrumental)

Now I think I'm gonna have to leave you  
Because I'm feeling much too weak to share  
And the pie, oh it's cut in too many pieces  
The flavour that I crave is no longer there  
Then I saw you making love to two of my best friends  
I didn't know whatever to say  
I saw you making love to a group of my best friends  
So I looked them right in their eyes and I said - listen here,  
group

Won't you take some more, it's what you came for  
And don't mind me, I won't throw you no curves  
Have yourself a ball with my good woman  
Won't you take some more boy, it's more than you deserve  
Won't you take some more boy, it's more than you deserve

Won't you take some more boys, it's more than you deserve
