

## She's Hot

### Meat Puppets

She's hot I know  
It's good she told me so  
It's good she's not  
I will she knows

I don't know what my name is  
I don't know anything at all  
Anything from A to Z  
If you remember me at all

She's hot I know  
She's hot she told me so  
It's good she's not  
It's hot she knows

I don't know what my name is  
I don't know anything at all  
I only know where she is I'll go  
If I could read the writing on the wall

This is too much  
She's hot and it's so  
She is too much  
It's good I know

I don't know what my name is  
I don't know anything at all  
Call me anything from A to Z  
I only know I'll answer when you call
