Free to Fly

Meghan Trainor

I put up my hair Let's get out of here I got nowhere Nowhere to go tonight I'm shaking now I can't control myself Gotta get out And find that grey light There's no turning back Gotta go where nobody else went Time alone is time well spent I wanna be All I wanna be Free to fly Free to fly And I wanna see All I wanna see You free to fly Away Ready to go Gotta fly outta here 'Cause that's all I know No more drowning in tears This isn't the start Gotta leave what's behind Who would've find Gotta find the real light And there's no turning back Gotta go where nobody else went The time alone is time well spent I wanna be I wanna be Free to fly Free to fly I wanna see I wanna see You free to fly It's not much longer Time's running faster Than you are So let's make this last Don't look to the past Find there's love I wanna be All I wanna be Free to fly I wanna see All I wanna see You free to fly I wanna be I wanna be

Free to fly Free to fly I wanna see All I wanna see You free to fly I wanna be All I wanna be Free to fly Free to fly I wanna see All I wanna see You free to fly Away
