

Be Mine

Meiko

I take a sip of the bottle
It's my remedy
And I know that it is a problem
I'm dealing with it on the daily
I'm so upset 'cause you're not here
like you're supposed to be
and I cannot let you know
I am driving myself crazy

I need you, need you
to come and see about me babe, me babe
I've been waiting here all this time
for you to come and be mine, be mine

I need you, need you
to come and see about me babe, me babe
I've been waiting here all this time
for you to come and be mine, be mine

So this is love
Well it's not
the way I thought it'd be
'cause I'm dreaming of
a life where you're not
so far away from me
I miss your touch
and I want some kind of a relief
I want you here and now
I want it all somehow

I need you, need you
to come and see about me babe, me babe
I've been waiting here all this time
for you to come and be mine, be mine

I need you, need you
to come and see about me babe, me babe
I've been waiting here all this time
for you to come and be mine, be mine

Be mine, oh Be mine

Oh, what's the use, I'm trough
sick and tired of being blue
when all I want is you
to come and give it to me
like you wanna do

I need you, need you
to come and see about me babe, me babe
I've been waiting here all this time
for you to come and be mine, be mine

I need you, need you
to come and see about me babe, me babe
I've been waiting here all this time
for you to come and be mine, be mine

Be mine mine, mine
Be mine mine, mine
Be mine
