

Too Late

Melanie Thornton

This is the end - you did it again
Stop to pretend that you are in love with me
Stop telling me lies - I ain't gonna cry
No more alibis
High crime in the first degree

I won't let you hurt me baby
I won't let you drive me crazy
I don't trust your angel eyes
It's time to say goodbye

I've learned - in this game for two
Don't forget your heart
It's my turn - I will start again
And do the things I love!

It's too late - you had your chance
The game is over...
Time out!
I'm not a game to play
I'm not your joystick when you play your game
It's too late - for you to say "I'm sorry, Baby"
Time out!
I'm not your game boy, no
I'm not your play-girl you can push around

No more games with my heart
No gamble with my love
Right back to the start - this is where I have to go now
Respect my dreams and do the things that I need
That's how I feel
I'm gonna live my life right now

I won't let you hurt me baby
I won't let you drive me crazy
I don't trust your angel eyes
It's time to say good-bye

I'm still in love with you baby - it hurts so bad
Your love is tearing my heart apart...
