

## Deep Down Low

Melanie

I visit my dreams  
In the mournin' of night  
And wake to half wishes  
And the fall of the flight  
I won't hide my hopes  
In my down pillow  
They'll become my river  
And up them I'll flow  
Right in broad daylight  
In front of your eyes  
My wishes are flowin'  
But I'm their disguise

(refrain:)

Over and over, think it slow  
All things that grow  
Need not be pretty  
And don't have to show  
We could be  
Think it slow

Cause you got a secret for me  
That I know  
Not how to hang on to  
Or how to let go  
Can you keep me from drowning  
In my down pillow  
Oh! Please, I need help  
Cause my deep down is low

(repeat refrain once
