

Ladies and Gentlemen, boys and girls
Thank you for coming out tonight to the Mellow fuckin Hype circus
Left Brain, Hodgy Beats, lions, tigers, bears and wolves
Hold on to your seats people

Mellow is the ocean, Hype like my nerves is
It's MellowHype in my ElephunkCircus
Music waiter I serve you like a clerk did
9 to 5 and I don't even like to work shifts
Hindu fires light the life of the party
On your mark get set go, get them engines started
Lions, tigers, monkeys locked away from the audience
Clowns running through the crowd fightin in their argument
They keep splashin the water, even splashin your daughter
The wiplash caught her, the ballon cash cough-up
When you watch the room and balance on a tight rope
Your adrenaline pumps and gives you a tight throat
Canalope antalope antidote, white goats
Clowns paintin kids faces tellin them poilte jokes
As time blows over and the show's over
I'm ridin home with giraffes in my Ra-Rover

Oh shit, OF, Odd Future
It's Mellowhype, yeah, pass the peanuts
