

The Savage Hippy

Melvins

(You'rea fucking here
Right here with the stain
Secret cost for you and I
You have the wheel)

Behind my witch I watch your nightmares
And all that I spy is reaching through my lonely
My sin has made now
I smell something nasty
I'll start in the begining,
I stole all that I'll be

(What made you come here?
We broke it all
Give it up
What meaning makes you so cold
Nothing, not at all)

Behind my witch I watch your nightmares
And all that I spy is reaching to me
My sin has made now
I smell something nasty
I'll start at the beginning
I stole all that I'll be
