

# Antarctica

## Men Without Hats

Antarctica - Antarctica

Antarctica - Antarctica

Ice age is here, right in your town

Antarctica, look what you've done

And I, I feel like I've cheated your scheme

And I, I feel like you really know what I mean

Nightfall's heartbeat, the street's in a mess

On reflector, the beach is endless

And I, I feel like I've cheated your scheme

And I, I feel like you really know what I mean

It's my turn - It's my turn

Antarctica - Antarctica

No day, no night, and always the sound

Ice pressure

It's me that's found

And I, I feel like I'm really part of your scene

And I, I feel like you know what I mean

Pictures moving, and always the whirls

Antarctica, where are you now

And I, I feel like I'm really part of your scheme

And I, I feel like you're losing your dream

Antarctica - Antarctica

Antarctica - Antarctica

And I, I feel like you know what I mean

And I, I feel like I'm really lost in your seam

It's my turn - It's my turn

It's my turn - It's my turn

It's my turn - It's my turn
