

# Burning the Cross

Mercyful Fate

Riding out and summed up for they know no destination  
Demons and witches are leading their processions  
Breaking religion by burning the cross  
Breaking religion, burning the cross

Traveling in darkness, afraid of recognition  
Evil ambitions, they're planning the destruction  
Breaking religion by burning the cross  
Breaking religion, burning the cross

Oh you gotta see them riding through the darkness and stay in the night  
Unholy light  
You gotta see them riding through the darkness and stay in the night  
Unholy light  
You gotta see them riding through the darkness and stay in the night  
Yeah

Riding out and summed up for they know no destination  
Demons and witches are leading their processions  
Breaking religion by burning the cross  
Breaking religion, burning the cross

Traveling in darkness, afraid of recognition  
Evil ambitions, they're planning the destruction  
Breaking religion by burning the cross  
Breaking religion, burning the cross  
Oh yeah they're burning the cross (2x)  
Hear what they say, 'cause they do not go home. (2x)  
Oh you gotta see them riding through the darkness and stay in the night  
Unholy light  
You gotta see them riding through the darkness and stay in the night  
Unholy light  
You gotta see them riding through the darkness and stay in the night  
Yeah  
Doomsday reflections  
Above the clouds high in the sky  
Doomsday infections  
In their heads and in their minds  
Doomsday reflections  
Above the clouds high in the sky  
Doomsday infections  
In their heads and in their minds

You'll be burning the cross
