

# Shout

Meredith Brooks

It's 2:00 a.m. and the neighbors are jumpin'  
Mr. Cray threatens to call the police  
He jumps out of bed hits his head  
Now you got something to really shout about  
Everybody's got their eye on the T.V.  
Did Bill and Monica do it the floor  
The bombs go off and we're at war  
Now we've got something to really get mad about

You got something to shout about baby  
Yeah something to shout about  
'Cause if you're gonna shout  
Do it good and loud  
Get something to shout about  
Yeah yeah yeah shout it shout about

The stewardess doesn't have vegetarian  
There's no leg room, you've seen the movie twice  
The plane goes down and smashes on the ground  
Now you've got something to really freak you out

You got something to shout about baby  
Yeah something to shout about  
'Cause if you're gonna shout  
Do it good and loud  
Get something to shout about  
Yeah yeah yeah shout it shout about

So much wasted on unimportant things  
Throw away the precious time  
When there's so much that really needs changin'

You're driving home and the traffic isn't budging  
Layin' on the horn adding to the mess  
Then Y2K shuts down LA  
Now you got something to really freak you out

You got something to shout about baby  
Yeah something to shout about  
'Cause if you're gonna shout  
Do it good and loud  
Shout it out

Get something to shout about baby  
You need something to shout about  
'Cause if you're gonna shout  
Do it good and loud  
Shout it out, shout about
