

Harold's Super Service

Merle Haggard

Now me, I work at Harold's Super Service
We specialize in service all the way
And there's only one thing that really bugs me
That big ole boy in his stripped down Model A

At Harold's Super Service we do grease jobs
We fix thirty or forty flats every day
And just about the time we get real busy
Here comes that guy in his stripped down Model A

He says, "Gimme 50 cents worth of regular
Check my oil too if you don't mind
Put some air in my tires won't you mister
Clean my windows too if you have time"

Last night I dreamed I died an' went to Heaven
To that Mighty Super Service in the sky
I was satisfied a-pumpin gas forever
For the Angels in the sweet by and by

Now the Pearly Gates was just around the corner
I could see the new ones comin' ev'ry day
I was changin' plugs on Moses' Magic Carpet
When up thru the clouds there came this Model A

I says, "Gimme 50 cents worth of regular
Check my oil too if you don't mind
Put some air in my tires won't you mister
Clean my windows too if you have time"
