Frustration

Frustration
In my lexicon of hatea
I see you with your portraiture
Does he love you?
Does he love you too?

The brush strokes
Kiss your breasts and toes
I cry icicles in my stein
The heartbeats flutter
With an abnormal rhythm

The pain shoots through my body A sword between my thighs I wish that I could kill you But I too love your eyes

You're feeling less whore but you stimulate The hatred smolders in your eyes I'd drop to my knees in a second To salivate in your thighs

But all I do is fall over I don't have the strength I once had In you and your prickless lover And his easel in his eyes

I feel the pain creep up my leg
Blood runs from my nose
I puke my guts out at your feet
You're more man than I
To be dead to have no feeling
To be dry and spermless like a girl

I want so much to hurt you I want so much to hurt you I want so much to hurt you Marry me
I want you as my wife

Spermless like a girl More man than I More man than I

Frustration
In my lexicon of hate
You're feeling less like a whore but you
Stimulate

All I do is fall over
I don't have the strength I once had
All I do is fall over
I don't have the strength I once had

I want you so much to hurt you I want so much to hurt you I want so much to hurt you

I want you as a wife
