

Down

Metric

I wondered if you could come and help me
I want to get from here to there

I saw your face looked down tonight
I only hope that you're alright
I know you think it's always you who
Needs some time alone, needs some time alone

To feel down
To feel down

After tonight, another day
A chance to feel a different way
The sun is slowly changing sides
Still, sorrow in your eyes
Sorrow in your eyes

So feel down
So feel down

Heavy hearts swaying low
Feel down, let it go

So feel down
So feel down
Feel down
So feel down

I wondered if you could come and help me
