

Watch out Cupid
Stuck me with a sickness
Pull your little arrows out
Let me live my life

You better watch out Cupid
Stuck me with a sickness
Pull your little arrows out
Let me live my life
The one I'd better lead
All the blondes are fantasies

And we looked at them eleven ways
You said, "Look at me". And looked away
And you wrote the song I wanna play
I'll write you harmony in C

Everybody just wanna fall in love
Everybody just wanna play the lead

Watch out Cupid
Stuck me with a sickness
Pull your little arrows out
And let me live my life

She said, "I'm with stupid"
Money is a sick muse
Pull your little arrows out
Let me live my life
The one I'd better lead
All the blondes are fantasies

And we looked at them eleven ways
You said, "Look at me". And looked away
And you wrote the song I wanna play
I'll write you in harmony C

Everybody just wanna fall in love
Everybody just wana play the lead
