

# Make You Mine

## Miami Horror

All those troubles that you pack  
That you can't seem to forget  
Oooh, is it something you've subsided  
Lingers on inside your head

Baby, you've got me feeling it in my feet  
You've got me dancing  
No need to ask, just come to me  
When your in need of some romancing

Baby, you've got me feeling it in my feet  
You've got me dancing  
All the worrrys in your mind  
Just let them go and start dancing

When your fighting for affection  
When your feelings arnt as clear Oooohhh  
I got a (kill for your efflictions)?  
To make the pain disapear

All the those troubles that you've got  
That you can't seem to forget  
Oooh, is it something you've subsided  
Lingers on inside your head

Baby, you've got me feeling it in my feet  
You've got me dancing  
No need to ask, just come to me  
When your in need of some romancing

Baby, you've got me feeling it in my feet  
You've got me dancing  
All the worrrys in your mind  
Just let them go and start dancing

And when you need some piece of mind  
You know I'm never hard to find

All those feelings that you hide  
Allways stiring deep inside  
And if you ever feel inclined  
Now girl, you know I'll find the time  
On the dance floor of devine  
And shake our hips as we collide

And when you need some piece of mind  
You know I'm never hard to find  
All those feelings that you hide  
Allways stiring deep inside  
And if you ever feel inclined  
Now girl, you know I'll find the time  
On the dance floor of devine  
And shake our hips as we collide

Baby, you've got me feeling it in my feet
