Be who you are nothing more nothing less And let the beauty that you love be.... the very best Sing praises to the highest with your feet on the ground And reach for your brother with the words that you sound and Don't let mistakes be so monumental, and Don't let your love be so confidential, and Don't let your mind be so darn judgmental And please let heart be more influential Be thankful for all the Spirit provides And be thankful for all that you can see without eyes Give thanks to music that keeps us alive And give thanks to all the DJs worldwide

The music and the harmony, the family and friends It seems like when your dancin' man, the feelin' never ends The base of the base, the voice of the drum The fumble of the keys, my weapon is my tounge If there's love in the rhythm then the soul is gonna follow We turnin' up the system, it'll go until tomorrow If you need some money, I got some that you can borrow We dance until the sun come up and cast shadows Right now... the tune reflects, lights out... we soon connect We ride (ride) on lows and high So hot that we sweat, so happy we cry Wish bygones goodbye, thank god we's alive Wit' time on our side and this rhyme I provide We smile while we slide, do I say goodbye (nah) We keep it rockin' like the sound of lion
