## **Pumpin' Up the Party**

## **Miley Cyrus**

Hey get up, get loud Start pumpin' up the party now Hey get up, get loud Start pumpin' up the party now

It's the same old, same grind
But we don't feel we're wasting time
Not so bored that we can't find a better way
My friends, my kind, no one's gettin' left behind
If they did it'd be a crime, that's why we say

Let the music start a revolution (revolution) No time to play it safe

Hey get up, get loud Start pumpin' up the party now Hey get up, get loud Start pumpin' up the party now

They can't, we can, parents might not understand Havin' fun without a plan well that's what we do We're all here, let's go, gotta make this party grow Together we can make it blow right through the roof

The music's gonna start a revolution (revolution) Too late to play it safe

Hey get up, get loud Start pumpin' up the party now Hey get up, get loud Start pumpin' up the party now

We don't have to paint by numbers Let our voice come out from under Hear it rise feel the thunder It's time to lose control

Hey get up, get loud
Start pumpin' up the party now
Hey get up, get loud
Start pumpin' up the party now
Pumpin' up the party now
Party now, party now

Hey get up, get loud Start pumpin' up the party now Hey get up, get loud Start pumpin' up the party now (2x)
