Shake Me

Millencolin

I spend all the weekdays hangin' out with you I guess I haven't got a better thing to do you give me nothing though I'm happy all the time when the weekend comes you turn me down.

You try to shake me.

Do you remember when we were playing pool I was romantic and said you were a fool those are the moments that I really miss when "m cool and you think I try to dis.

I tried to hide my pain inside of me but when you came you made me feel real You made me feel like I really am god damn, now I'm loosing you just because I care.

You are my headache, I don't wanna be alone When I'm lonely you make me write another song I think of you and all the things we've done who's the loser and who has won?
