Children in heat
They have no conscience
No resistance
You gotta see this big reaction
No resistance

Cellophane sex, a new way of life With your heart in your throat And the other alive You've been pissin', pissin' blood Pissin' blood for seven days

No resistance No resistance No resistance

Children in heat You can't control them Why they're away and away They're always gonna run away

Children in heat
You can't control them
Why they're running away

Children in heat
Are young little kindle wood
I see them burning
They all changed their names to Chicago

No resistance No resistance No resistance

Children in heat
You can't control them
Why they're running away

Children in heat You can't control them Why they're running away and away They're always gonna run away

Children in heat You can't control them Why they're running away and away They're always gonna run away

Children in heat
You can't control them
Why they're running away
