Dust to Dust

Hey you father For you have sinned Why did you love Let this life begin

I'm not your savior I'm not your son A forgotten boy Abandoned creation

With these final words I pull the switch We turn to dust, dust to dust My name is like the kiss of death And when we embrace we turn to dust

With these final words I pull the switch We turn to dust, dust to dust My name is like the kiss of death And we embrace we turn to dust

Turn to dust Ooh, oh Mother, father, you've answered me Your soulless son, your thing that should not be A brilliant people, upon to doubt You gave me life, but took the soul away

With these final words I pull the switch We turn to dust, dust to dust My name is like the kiss of death And when we embrace we turn to dust

With these final words I pull the switch We turn to dust, dust to dust My name is like the kiss of death Ashes to ashes, dust to dust Dust to dust

Now, we we belong dead We belong dead, we belong dead We belong

Oh With these final words I pull the switch We turn to dust, dust to dust My name is like the kiss of death And when we embrace we turn to dust

With these final words I pull the switch We turn to dust, dust to dust My name is like the kiss of death And when we embrace we turn to dust

We turn to dust.
