

## Nocturnal Riders

Mithotyn

From the highlands they come  
riding at black stallions at night.  
Restless chaotic souls without peace  
ravage the countryside and killing  
all in sight.

Empty eyesockets shining of red  
and bodies of black shadows.

The hordes of darkened souls  
awakening at night and dissolves  
at daybreak.

Nocturnal riders - Unholy dark spirits.  
Nocturnal riders - Risen from the graves.  
Nocturnal riders - Slays every life of the light.  
Nocturnal riders - On their nocturnal crusade.

Beware of their rage of envy,  
do not try to save their souls  
if life is precious to you.  
Nothing can stop their crusade of death.
