

Ghost

Mnemic

I made you and your hate to socialize in a matter that suits me
fine.

So while I breathe in you punched my teeth in.

I tried to explain it but you just, you just don't see.

I, I see right through you.

So you do things, mainly bad things. Is it to satisfy your own
neurotic needs.

I got this feeling I'm just dreaming but just make sure I'm awa
ke when you punish me.

Come follow me to that place where we both see what happened to
you. I need

to see if it's all true. Confide in me.

I was blind but now...

I see right through all that you do, but though I see you I kno
w you're not

here with me and still I try to explain to you.

How your presence is affecting my state of mind.

Oh suck me in, inside myself

I want to, taste myself

It drags me down, your dismal past

And all you want, is to make that last

Don't want this, its true what they say

Ignorance is bliss, I'll find another way

In my mind, it's all good now

I don't do things, that's abnormal

They'll take me and put me away.

Listen to me when I tell you I'm not insane

I, I see right through you
