Forever

Two simple places We wanted to go Two simple things You wanted to know

Everything around I could not see I wish I'd known How much you loved me Oh, we could feel this way forever [2x]

I watched the sun, cause it touches you while you sleep You gave me something, that I wanted to keep

I see you smile you smile like a little child And hold you crying when it all goes wild

Oh We could feel this way forever [6x] Moby
