

# Tell Me

Moby

How could? How could you tell me?  
How could? How could you tell me?  
How could? How could you tell me?  
How could? How could you tell me?

An examination, agreed with the night  
My hands as rose  
I am thrown too far  
Jam me into place

How could? How could you tell me?  
How could? How could you tell me?

[2x]  
Didn't I measure time?  
I was always wrong and weak  
You went out of line

Last time a cold cold bed  
Didn't have the heat  
I gave you memories  
Come deeper please

[2x]  
Didn't I measure time?  
I was always wrong and weak  
You went out of line

I got nowhere to stay tonight  
Won't you make me stay?  
Keep your clear eyes on the prize

And as I'm there  
Bring me to your knees  
And as I'm there  
Bring me to your knees

[4x]  
Didn't I measure time?  
I was always wrong and weak  
You went out of line

Didn't I measure time?  
I was always wrong and weak  
Combined
