See the storm is broken
in the middle of the night
nothing left here for me
it's washed away
the rain pushes
the buildings aside
the sky turns black
the sky
wash it far
push it out to sea
there's nothing left here
for me
I watch it lift up to the sky
I watch it crush me
and then I die

Speak to me baby in the middle of the night pull your mouth close to mine I can see the wind coming down like black night so speak to me like the winds outside it's broken up, pushing us hear the rain fall see the wind come to my eyes see the storm broken now nothing speak to me baby in the middle of the night speak to me hold your mouth to mine 'cause the sky is breaking it's deeper than love I know the way you feel like the rains outside speak to me
