

From Coast to Coast

Modern Talking

Oh lady, I'm close to lose you
You're burning up my live, more and more
Oh lady, I can't forget you

I know I can't survive like before
Oh lady, I'll always miss you
Oh, I will swear to you that I love you

From coast to coast, from coast to coast
From east to west, from east to west
I know for sure, I know for sure
You are the best, you are the best

Why does it feel so good with you?
Don't leave me here, what can I do?
My world is in your hands, you'll see
I love you till eternity

Oh lady, if this is heaven
I'm not afraid of hell, I'm telling you
Oh lady, my heart is lonely

I know the time will tell, I tell the truth
Oh lady, I'll always miss you
Oh, I will swear to you, that I love you
