

# Don't Leave Me Lonely

Molly Hatchet

I woke up this morning  
And my back door was open  
I knew that you left me behind  
You had been by my side  
We had nothing to hide  
But I didn't think  
You'd change your mind.

Darling you know  
When my feelings are showing  
It's hard to keep my love in control  
Don't leave me lonely  
You know I want you only  
You'll always have my love to hold  
But everybody knows what I need  
I need love.

Don't leave me lonely tonight  
Stay home and make it right  
Don't leave me lonely tonight  
Stay at home and hold me tight.

So if you've got your doubts  
Or you're feelin' down and out  
Just pick up your telephone  
I'll always be there  
To show you that I care  
I'll see that you're never alone.

Stay by my side  
We've got nothing to hide  
We know this love of ours is real  
We'll never be lonely  
If you just love me only  
You'll always know just how I feel  
Everybody knows just what we need  
We need love.

Don't leave me lonely tonight  
Stay home and make it right  
Don't leave me lonely tonight  
Stay at home and hold me tight.

I woke up this morning  
And my back door was open  
I knew that you left me behind  
You had been by my side  
We had nothing to hide  
But I didn't think  
You'd change your mind.

Darling you know  
When my feelings are showing  
It's hard to keep my love in control  
Don't leave me lonely  
You know I want you only  
You'll always have my love to hold

But everybody knows what we need  
We need love.

Don't leave me lonely tonight  
Stay home and make it right  
Don't leave me lonely tonight  
Stay at home and hold me tight.
