

## Dreams Of Life

Molly Hatchet

Mama had dreams.. but Daddy had plans  
I lived on Mama's love but learned from Daddy's hands  
They gave me all the freedom to be who I am  
Took me from boy to man...

I cherish the day's when they were alive  
Mama taught me respect and how to feel inside  
Daddy was busy workin' just tryin' to make a dime  
He said son you gotta live and learn to survive

I saw a falling star...fall down from the sky  
Stars fall for all the loved ones go by  
May the dreams of Life be with you  
Passed through the hands of time  
I never dreamed those hands would be mine.

I was lucky to have her love...  
I didn't have much time  
I felt the love of my Mama's heart  
I just wanted to say goodbye...say goodbye

I saw a falling star...fall down from the sky  
Stars fall for all the loved ones go by  
May the dreams of Life be with you  
Passed through the hands of time  
I never dreamed those hands would be mine.
