

Teenager

Mona

When you're young you are young
Yea you're just a teenager
Wait little chump
yea you wait a little later
You grow up you grow up
and keep all the anger
you come in a lover
you're leaving a hater

Love love you can't find a love
You love love, but can't find a love

Just look up just look up
Yea you're gettin older
You came in scared
But you're leaving bolder
Don't give up don't give up
It's not done or over
When they push away
Turn the cold shoulder

All I know is
It's gonna get a little closer
All I know is
It's gonna be today
All I know is
It's gonna get a little better
All I know is
We'll see better days

When you're young
And so full of something

Love love you can't find a love
You love love, but can't find a love
