

## Searchin'

Monica

When I hear the children of today  
They're questioning me the way  
The way that they should live  
I often wonder, wonder what to do  
To help them make it through  
In a world that's gone astray

Open my heart to see that it's up to me  
Searchin' for the answers to these problems  
I'm always facing things that are tryin' me  
Testing all the things that I believe

Sometimes I feel so down and no one here's around  
But you, you never left me lonely  
And now I see, what a true friend means  
And I trust that you would always be here for me  
Lord, I give you all

Open my heart to see that this lies with me  
Searchin' for the answers to these problems  
I'm always facing things that are tryin' me  
(I'm standing right here)

Testing all the things that I believe  
Now I'm here before you  
So tell me what to do  
(Guess I will open my heart)

My heart to you, here I am  
Searching for all the answers to my problems  
Lord I'm facing things, can you help me?  
You're trying all that I need the things I believe  
Lord, no no no no

Here I am, here I am  
I'm searching for, searching for it  
Lord, I need, need, need, that's tryin' me  
Testing all the things that I believe

No, no, here I am  
Lacking all the understand the things I can't see  
I am your child, ooh, oh, oh  
That're tryin' me

Can you help me, I'm lacking understanding  
I'm your child no matter what they say  
I'm yours every day  
Protect me every day, protect me, oh, oh
