

# With You

Monica

It's sunny outside, and I need somewhere to go  
The day is just right, and I want to be with you for sure  
So jump in your car baby, and come over here  
We can go wherever sugar, I just want you near

So play me a melody  
No matter what you find  
Somethin' to roll to, somethin' to ease my mind  
Just play me a melody  
No matter what you find  
Somethin' to roll to, when we're chillin' in your ride

Cause I love (I love) kickin' it with you  
Me and you, gettin' it on  
So baby, slide a tape in boy  
You know, to play our song  
Chillin', ridin' to the music  
Laid back low, when I'm with you  
When I'm with you

Dressed real fly, feeling just right for the weather  
Drop top back, where we're gonna go, don't know, wherever  
Maybe to the park, or we'll just roll down the highway  
Just you and me, runnin' to the beat, makes me wanna say, baby

Play me a melody (Play me a melody)  
No matter what you find (No matter what you find)  
Somethin' to roll to, somethin' to ease my mind  
Just play me a melody (Just play me a melody)  
No matter what you find  
Somethin' to roll to, while we're chillin' in your ride

I love, kickin' it with you  
Me and you, gettin' it on  
So baby, slide a tape in boy  
You know, to play our song  
Chillin', ridin' to the music  
Laid back low, when I'm with you  
When I'm with you

(Cause I love) I love, kickin' it with you  
Me and you, gettin' it on  
So baby, slide a tape in boy  
You know, to play our song  
Chillin', ridin' to the music  
Laid back low, when I'm with you  
When I'm with you

Diamond in the back, sunroof top, leanin' to the side, baby  
When I'm with you, yeah, uh, check me out  
Diamond in the back, sunroof top, leanin' to the side baby  
When I'm with you, yeah  
Talk to me baby, talk to me baby, talk

I love, kickin' it with you  
Me and you, gettin' it on  
So baby, slide a tape in boy

You know, to play our song  
Chillin', ridin' to the music  
Laid back low, when I'm with you  
When I'm with you
