The Right Stuff

Monster Magnet

I don't feel fear or panic
And nothing brings me down
I'm an aerospace age warrior
I can fly sideways through sound
My reflexes and reactions
Are as fast as a machine

I'm the right stuff baby, the right stuff
The right stuff baby, the right stuff
The right stuff baby, the right stuff
Watch my trail

When the dial needle flickers
Around mach one or two
And something happens suddenly
I know just what to do
My fist move without feeling
And my feet like lightning too

I'm the right stuff baby, the right stuff The right stuff baby, the right stuff The right stuff baby, the right stuff Watch my trail

My nerves are made of steel My nerves are made of steel My nerves are made of steel My nerves are made of steel

My nerves are made of steel My nerves are made of steel My nerves are made of steel My nerves are made of steel

And what would freak the average man Would not affect my heart
Not even if ...
Should shake itself apart

The right stuff baby, the right stuff The right stuff baby, the right stuff The right stuff baby, the right stuff Watch my trail
