

## Winter Mountain

Mostly Autumn

Welcome, Winter Mountain  
Standing in the silent purple sky.  
Welcome winter mountain  
And I know it's where I want to be.

Welcome, winter Mountain  
High against the silent crystal sky.  
Welcome winter mountain  
And I know it's where I want to be.

Dawn cracks the vault of night  
Dimming the stars so cold, so bright  
Head throbbing from the 'Clachaig' ale last night.  
No sound, no wind  
Just light purple sky.  
Shadows shorten before my eyes  
As I gaze at the mountain near at hand.

Welcome, Winter Mountain  
Standing in the silent purple sky.  
Welcome winter mountain  
And I know it's where I want to be.

I'm coming home...
