

## The Other Fool

Motorpsycho

Although the time is never right  
it's only ever clear at night  
her teeth looked like plastic when I peaked  
There's tumors right behind their eyes  
their poison tongue tell only lies  
there's blood on the hands that feed and I  
swear I saw a tattoo on her thigh

Flies are buzzin' 'round my head  
living grey and dreaming red  
the wrong track?  
it's the only one I know  
I watch them run all hyped and wired  
smell their fear and sense how tired  
the words are -  
the hive has lost it's brain  
it doesn't even seem to sense the pain..

Knick knack paddywhack  
give the dog a bone  
running with the pack  
getting wasted ; getting...

Chrystal candy,bad tattoos  
diet Coke and Disney blues  
I'm so tired  
- kick off in the void -  
let's get some weed and chill out to Pink Floyd
